COVID-19

To all our current customers, future customers and vendors,

Our hearts go out to all who have been affected by COVID-19. During these times of great uncertainty created by the COVID-19 pandemic, we want to reassure you that during this challenging time, all our locations will remain open at this time. We have taken the appropriate steps to protect the health and well-being of our staff while we continue to serve you.

As we monitor and follow the guidelines and advisories from world, federal, and state authorities, as a moving and storage company we are fully committed to providing all our customers the support you have come to expect from Shur-Way Movers over the past 65 years. We have already taken the appropriate steps at this time to continue operations during our normal business hours.

We are urging all booked customers to try and relocate sooner rather than later. With so much uncertainty going on today Shur-Way would like to get AHEAD of the curve by completing as many of our moves, prior to any "potential" mandated shutdown.

Shur-Way understands relocating is already stressful, so due to the recent circumstances we will also be offering free Storage on all booked customers that can move out of their homes early, but not into their new homes yet. Please call for details.

Thank you,

A handwritten signature in black ink that reads "Eric Brzezinski". The signature is written in a cursive style with a prominent initial "E".

Eric Brzezinski
